SCHOOL OF TECHNOLOGY MANAGEMENT & ENGINEERING

Brungi Shiva Ganesh
B.Tech Computer & Data Science (2023 – 2027)
LinkedIn | GitHub | brungishivaganesh@gmail.com

Education

STME, NMIMS University, Hyderabad **2023 - 2027**
Currently pursuing B.Tech with focus on Data Science, Machine Learning, Database Management Systems, and Full Stack Development. Actively involved in technical projects, research presentation, and hackathon competitions.

Sri Guru Junior College, Ibrahimpatnam, Hyderabad **2021 - 2023**
Intermediate (MPC): 89% — Built strong analytical and mathematical foundation.

Chaitanya Central School (CBSE), Mahabubnagar **2013 - 2021**
Completed CBSE curriculum with a balanced focus on academics, cultural participation, and sports engagement.

Projects

Gym Management System – Personal Project **2024**
Independently designed and developed a role-based gym management platform using PHP, HTML, CSS, JavaScript, and MySQL. Implemented separate dashboards for Admin, Gym Owners, and Members with attendance tracking, payment monitoring, renewal management, and automated notifications. Designed structured database architecture with secure role-based authentication.

ICA Tracker – NMIMS Hyderabad | Group Project (3) **2025**
Developed a multi-dashboard academic tracking system using PHP, JavaScript, and SQL. Built structured database modules and implemented role-based access for Program Chair, Teachers, Students, and Admin. Enabled centralized academic performance monitoring and attendance management.

AI-Powered Chest X-ray Disease Detection – Capgemini AI4 Health Hackathon (Rank 1) **2025**
Built a deep learning model using Python for detecting diseases from chest X-ray images. Developed the prototype interface using React and Node.js, and trained and integrated .h5 models into the healthcare application that predicts diseases with probability scoring. Secured 1st place among 19 teams in a national-level competition.

Certifications & Publications

Research Publication – IICTDS 2025
International Conference, NMIMS Chandigarh. Co-authored and presented a research paper on fruit and vegetable freshness detection using deep learning. Contributed to model development and prototype implementation for supply chain and food quality analysis.

- Microsoft Certifications
- KL University Hackathon Certification
- ICAT Certificate

Core Skills

Technical Skills:
C++, HTML, CSS,JS, , MySQL, React, Node.js, Python, Flask, Machine Learning, Deep Learning, Excel, Power BI, Unity, Blender.

Soft Skills:
Leadership, Teamwork, Problem Solving, Research & Technical Presentation.

Achievements and Positions of Responsibility

- Winner – AI4 Health Hackathon (Judged by Capgemini)
- Research Paper Presenter – IICTDS 2025
- Organizer in Sports Club, NMIMS HYD
